THE MAGAZINE OF LIFESTYLES, INTERESTS & LEISURE

WINTER 2009

WWW.VIEWSMAGAZINE.COM

GREEN!

1. Sustainable. The wood frame is grown locally.
2. Durable. The building is expected to last 400 years.

QUALITY HAND CONSTRUCTION

3. Efficient. The building costs 1/2 as much to heat and cool as studwall/fiberglass construction. Consider the saving over 400 years.

AND BEAUTIFUL!
